

Great features for a better garage door

1

InsuRoll choice
Your door can be ordered with either a half or a full hood as shown, finishing the interior off perfectly.

2

Draft protection
Drafts are greatly reduced with our patented triple side guide sealing system. Aside from reducing drafts, it makes the door much quieter during operation.

3

Effective seal
Our deep rubber-bottom seal provides an effective seal against water ingress at the bottom of the door – but only as good as the garage floor!

4

Superior automatic locking system
Deprat™ locking assemblies with integrated steel reinforcing, offer the best protection against the door being forced open.

5

Anti-scaff locking system
Traditional locking system, but with an added anti-friction coating that reduces friction marks on the inside of the door curtain.

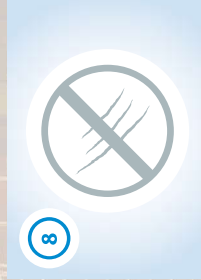

6

Extra strong bottom lath
Deep extruded aluminium, enhances security of the door, stops it from being forced out of the side guides.

7

Optimum lath thickness
77mm x 19mm, offers one of the most rigid and insulated lath available today.

8

Abrasion resistance
PUR/PA® is a two layer lacquer coating applied to profiles at a thickness of 25-30 microns which provides an effective resistance to scratches and marks on the curtain.
